BELL TELEPHONE COMPANY'S PROPOSED	)	CASE NO. 95-115
CONTRACT WITH LOUISVILLE GAS AND	)	
ELECTRIC FOR INTEGRATED SERVICES DIGITAL	)	
NETWORK - INDIVIDUAL BUSINESS SERVICE	)	

O R D E R

This matter arising upon petition of BellSouth Telecommunications, Inc. d/b/a South Central Bell Telephone Company ("South Central Bell"), filed March 22, 1995, pursuant to 807 KAR 5:001, Section 7, for confidential protection of the cost support data developed in connection with a special service arrangement contract with Louisville Gas and Electric Company ("LG&E") for Integrated Services Digital Network - Individual Business Service ("ISDN-IBS") on the grounds that disclosure of the information is likely to cause South Central Bell competitive injury, and it appearing to this Commission as follows:

South Central Bell has contracted with LG&E to provide an ISDN-IBS circuit. This service is a tariffed service, but is only available on qualified facilities. A provision of the service at the customer's location will require the placement of a repeater in the outside plant facility. In support of the application, South Central Bell has provided cost data which it seeks to protect as confidential.

# CORRECTION

***PRECEDING IMAGE HAS BEEN  
REFILMED  
TO ASSURE LEGIBILITY OR TO  
CORRECT A POSSIBLE ERROR***

The information sought to be protected is not known outside of South Central Bell and is not disseminated within South Central Bell except to those employees who have a legitimate business need to know and act upon the information. South Central Bell seeks to preserve and protect the confidentiality of the information through all appropriate means, including the maintenance of appropriate security at its offices.

KRS 61.872(1) requires information filed with the Commission to be available for public inspection unless specifically exempted by statute. Exemptions from this requirement are provided in KRS 61.878(1). That subsection of the statute exempts several categories of information. One category exempted in paragraph (c)1 of that subsection is commercial information confidentially disclosed to the Commission which if made public would permit an unfair commercial advantage to competitors of the party from whom the information was obtained. To qualify for the exemption, the party claiming confidentiality must demonstrate actual competition and a likelihood of substantial competitive injury if the information is disclosed. Competitive injury occurs when disclosure of the information gives competitors an unfair business advantage.

ISDN-IBS service allows business customers to transmit voice and data over ISDN channels through the exchange network. This service is an alternative to other local exchange service offerings, private line/data services, and dedicated private line networks. South Central Bell's competitors for local exchange

service are cellular carriers who may also provide cellular data services and will soon include providers of personal communications services, cable TV providers, and alternate access providers. South Central Bell's competitors for private line/data services and networks are interexchange carriers, resellers, and vendors of microwave, digital radio, fiber, VSAT, and other wireless equipment and services. Disclosure of the information would enable competitors to determine South Central Bell's cost and contribution from the service which they could use in marketing their competing service to the detriment of South Central Bell. Therefore, disclosure of the information is likely to cause South Central Bell competitive injury and the information should be protected as confidential.

This Commission being otherwise sufficiently advised,

IT IS ORDERED that the cost support data filed in support of the proposed contract with LG&E, which South Central Bell has petitioned to be withheld from public disclosure, shall be held and retained by this Commission as confidential and shall not be open for public inspection.

Done at Frankfort, Kentucky, this 9th day of June, 1995.
